Cable Ties

Standard Nylon 6,6 range

, ,
Polyamide 6,6
Black or Natural
UL94V-2
-40°c to +85°c
-10°c

- RoHs & REACH compliant
- UL approved
- ✓ Virgin Nylon, zero regrind
- Zero halogen
- Meets UL62275-AH2 low smoke plenum rating
- ✓ Manufactured in accordance with ISO9001:2008

(8.1KG/ 18LBS MINIMUM LOOP TENSILE STRENGTH)

Recommended Tool: TGM1

Our standard nylon cable ties are manufactured to meet or exceed industry standards using premium quality, virgin nylon 6,6. This ensures consistent performance and reliability and also allows for recycling of the nylon. The head design of our cable tie guarantees high tensile strength and low insertion force. Our cable ties are easy to thread with no flash/fash and have inside serrations for a secure hold.

LIGHT HEAVY RANGE CABLE TIES: 7.6mm WIDTH

HEAVY RANGE CABLE TIES: 9.0mm WIDTH

Our standard cable ties are non-releasable and can be tensioned by hand or with one of our tensioning tools. The self locking mechanism allows the cable ties to be quickly secured in place.

Huge stock holding at our Sheffield based warehouse enabling same day despatch. Careful storage and strict stock rotation ensures our cable ties reach you in perfect condition. The versatility of a cable tie makes them suitable for countless applications across multiple industries.

Standard cable tie tensioning tool.

Accepts ties upto 4.8mm wide. This metal tool has an adjustable tension with automatic flush cut off for excess tie.

TGM1: £11.95 each (Singles) £9.95 each (Box of 20)

Manual cable tie tensioning tool. Accepts ties upto 9.5mm wide
This metal tool has a manual tension and separate flush cut facility.

TGM3: £10.86 each (Singles) £8.86 each (Box of 20)

TGM4: £18.74 each (Singles) £16.74 each (Box of 20)

UV STABILISED CABLE TIES

Material	UV Stabilised Polyamide 6.6
Colour	Black
Flammability	UL94V-2
Operating Temperature	-40°c to +85°c

☑ RoHs

UV stabilised cable ties are designed for installation in areas where the cable tie will be subjected to high levels of UV exposure. Commonly used in the renewable energy market where long term, outdoor use is likely.

Made from black weather resistant PA66 Resin in accordance with ASTM Standard D6779, D4066 and MIL spec M-20693B. Weather resistance is obtained by incorporating finely divided, well-dispersed carbon black particles in the nylon matrix. Material Meets Requirements of UL746C with F1 Rating - Tested for outdoor suitability (Exposure to UV weathering, moisture and water immersion).

Classified as 'UV Resistant' in accordance with UL62275.

HEAT STABILISED CABLE TIES

Material	Heat Stabilised Polyamide 4.6
Colour	Green Tint/ Natural or Black
Flammability	UL94V-2
Operating Temperature	-40°c to +120°c

Suitable for continuous use temperatures upto 120°C. Heat Stabilised cable ties are made from a specially formulated polymer which provides additional thermal endurance without affecting performance. Engineered for continuous exposure to temperatures upto 120°C. Ideal for use in electrical applications, and applications where cable ties are in continuous or extended exposure to high temperatures.

☑ RoHs Green Tint/ Natural supplied as standard. Please specify 'B' after the part number for black colour

SELF EXTINGUISHING CABLE TIES-VO

Material	Polyamide 6.6 V0
Colour	White/ ivory
Flammability	UL94V-0
Operating	-40°c to +80°c

Phosphorus free. V0, self extinguishing cable ties are designed and engineered

to resist burning and inhibit the spread of fire.

white/ ivory ☑ RoHs

METAL CONTENT/ DETECTABLE CABLE TIES

Material	Polyamide 6.6 with metal particles
Colour	Blue
Flammability	UL94V-2
Operating Temperature	-40°c to +85°c

Metal content/ detectable cable ties are commonly used within the food and pharmaceutical processing industries.

The inclusion of finely dispersed metal particles within the nylon polymer enables even small cut off sections to be detected by standard metal detecting equipment.

Blue in colour for easy visual detection.

Can be used as part of HACCP process. Reduces the risk of contamination.

METAL TOOTH CABLE TIES

Material	Polyamide 6.6
Colour	Black or Natural
Flammability	UL94V-2
Operating Temperature	-40°c to +85°c

Smooth nylon cable ties with stainless steel tooth. Self locking design for fast and secure installation. The stainless steel tooth sets the tie strap in the desired position to suit a completely variable range of fixing diameters

POLYPROPYLENE CABLE TIES

Material	Polypropylene
Colour	Black
Flammability	UL94HB
Operating	- 20°c to +75°c

Polypropylene cable ties are ideal for use in aggressive chemical environments where chemical effects on nylon are a concern. Excellent resistance against most acids and bases.

Good resistance to many other chemicals, although have a lower tensile strength than Nylon 6.6.

Polypropylene can easily be recycled. Local councils may accept Polypropylene in their plastics recycling collection. Please check with your local authority. Polypropylene is classed as resin code 5 (PP).

ENVIRONMENTALLY FRIENDLY FIXING SOLUTIONS

Reuseable cable ties: Cable ties are often fixed in place within an installation for many years. While this is technically classed as single-use, it is different to a plastic straw, for example, which is disposed of after minutes in use. There are certain applications where a cable tie may only be in use for a short amount of time, such as at a festival or event. For short term or non-permanent cable tie applications, we offer a range of releasable cable ties which can be re-used. See our range below.

PA recycling: We are sometimes asked for cable ties that have been manufactured from recycled/ reground nylon but these cable ties are unreliable and usually unfit for purpose. Therefore, we only supply cable ties that are manufactured from 100% virgin nylon. Not only does this ensure high quality, it also means that the waste from our cable ties can be recycled. We can do this for you, please contact us for further information on our recycling service. Unfortunately, we cannot accept your cable tie waste without prior

PP recycling: Polypropylene can easily be recycled. Local councils may accept Polypropylene in their plastics recycling collection. Please check with your local authority. Polypropylene is classed as resin code 5 (PP). See page 5 for our range.

Biodegradable: We previously offered Biodegradable Cable Ties but had some teething problems with the design. We have been working hard to offer an improved version and we are expecting these to be on the shelf soon. Please contact us for updates.

RELEASABLE/ REUSABLE HOOK AND LOOP CABLE TIES

Material	Hook: Nylon Loop: Polyester
Colour	Mixed
Operating Temperature	-40°c to +85°c

☑ RoHs

Hook and loop cable ties are easy to install and are releasable/ removable and reusable, making them a cost effective and environmentally friendly fastener. A multi use product, commonly used for bundling cables/ wires. Hook and loop is a self gripping, wrap around fastener. Wrap the strap around and press to secure. It is thin and soft with no sharp edges, making it an ideal product for fastening fibre optic and network cables and also for use on children's playground equipment. They are adjustable once fastened, suitable for applications where installation modifications may be required.

IN LINE LASHING/ LOW PROFILE CABLE TIES

Material	Polyamide 6.6	
Colour	Black	
Flammability	UL94V-2	☑ RoHs
Operating	-40°c to +85°c	

These cable ties have a low profile head with in-line locking system/ parallel entry and outside serrations for enhanced fit around circular bundles, minimising the risk of indentation and damage Commonly used on children's playground equipment as the low profile head reduces the risk of snagging and causing injury. Also ideal for applications where the installation space is restricted

316 GRADE STAINLESS STEEL CABLE TIES- ROLLER BALL STYLE

-80°c to +500°c ☑ RoHs

316 Grade Stainless Steel Roller Ball / Ball Lock Cable Ties. Also known as A4, marine & food grade. Top quality stainless steel developed for highly corrosive applications. 100% UV resistant. This material has a high Molybdenum and elevated Nickel content which increases its resistance to corrosion, particularly higher resistance to pitting and crevice corrosion in chloride environments. It resists scaling at high temperatures and maintains good mechanical properties Ideal for use in harsh and demanding environments or where the application requires

reliability, high strength and fire resistance. Quick and easy installation either by hand or tensioning tool Used in numerous industries, such as: Offshore, renewable energy, aerospace, mining, marine, ship building, food industry, wiring installation, chemical plant.

POLYESTER COATED 316 STAINLESS STEEL CABLE TIES

Material	316 Stainless Steel with polyester coating
Colour	Black or Red
Operating Temperature	-20°c to +140°c

☑ RoHs

Polyester Coated 316 Grade Stainless Steel Roller Ball / Ball Lock Cable Ties Also known as A4, marine & food grade. Polyester coated body with uncoated head. Polyester coating provides added edge protection & prevents corrosion between dissimilar metals. Top quality stainless steel developed for highly corrosive applications. This material has a high Molybdenum and elevated Nickel content which increases its resistance to corrosion, particularly higher resistance to pitting and crevice corrosion in chloride environments. It resists scaling at high temperatures and maintains good mechanical properties. Ideal for use in harsh and demanding environments or where the application requires reliability, high strength and fire resistance. Quick and easy installation either by hand or tensioning tool.

FLEXIBLE TAGS

These flexible tags can be used on a multitude of applications from identification to inspection.

Manufactured from extremely durable TPU (polyurethane) they are flexible, extremely durable and suitable for use in any weather conditions. In addition they are resistant to high and low temperatures and to most acids, alkali and solvents. The integral slots allow the tag to be fastened through itself at 2 positions to suit the individual application.

Overall Length of tag (including flag): 200mm

Working Tie Length: 115mm

Shield shape flag dimensions: Length 85mm x (60mm at widest point, down to 12mm width at tail)

Available in: Red, White, Blue, Green, Yellow & Orange.

EDGE CLIPS

POPULAR IN THE SOLAR AND AUTOMOTIVE INDUSTRY

Edge clips are an excellent solution for the attachment of cables, wires & tubes in a vehicle or on a plastic or metal profile. We offer edge clips for different applications; with an option of 2 sizes with the cable tie fastening on the top or the side of the clip and with the direction of the cable tie either right angled or parallel to the profile

Ideal for applications where fixings holes are not an option and adhesive cannot be used due to temperature issues. Commonly used in the solar industry, harness making, electrical industry, panel building & electrical industry.

Pic	Profile	Cable Tie	Cable Tie	Part No	Price Per		
No	Thickness	Position	Direction		100	500	1000

☑ RoHs

The PVC Spiral Reinforced System is highly flexible and easy to use, it can be coiled on its own diameter without effort or damage to the

conduit, neither will there be any reduction in its cross section and cables are therefore protected at all times, no matter how highly flexed. The Conduit is weatherproof and self extinguishing and is ideal for general purpose applications.

CONDUIT MUST BE ORDERED IN MULTIPLES OF 10m

Outside	Inside	Part	Price Per:
Diameter	Diameter	No	Full Roll
			10m 30m

Monofilament Diameter 0.22mm

High Abrasion Resistance. An economical answer to the installing, protecting, strengthening, enhancing, assembling over bundles, wires, cables and flexible

This expandable braided sleeving is both tough and lightweight and can be used in all industries. Designed for thermal insulation and mechanical protection.

The special braided characteristics allows for the expansion of its internal diameter, whilst contracting its length, allowing easy assembly of cable bundling and the general protection of electrical conductors and other components.

WRAP AROUND BRAIDED SLEEVING

Operating Temp: -50°C to 150°C

Zero Halogen. Flame retardant and self extinguishing. Simply wrap the braid around the length of cable or wiring that needs protection and twist to tighten, offers full braid protection.

POLYESTER ANCHOR RESIN

Heavy duty all metal chemical cartridge applicator gun. Quick release catch stems the flow of resin eliminating waste. Body length 360mm

410ml Polyester resin offers an effective anchoring system for fixing into concrete and masonry. The stress-free nature of this solution gives greater flexibility when anchoring closer to a substrate edge such as balustrade installation. An economic resin ideal for day to day non-safety critical applications. For areas that are well ventilated at the time of installation

Description	Part No	Price
Applicator gun	NHT236	£16.15
Polyester resin 410ml cartridge x 12	WG05	£102.60
Spare mixer nozzle	NHT237	£0.75

THREADED ROD CUTTING TOOL

Supplied with an M10 Blade.

The blades, jaws and body are made of alloy steel and are completely heat treated in order to assure sharpness of the blades and long durability

enalphose of the blades and long dands				
Part No	Price	Makes clean cuts without		
		damaging thread.		
NHT020	£223.65	aamaging ambaai

BLIND RIVET STUD & NUTSERT TOOL Powerful and robust

tool used to insert Blind Rivet Studs M4, M5 and M6 into a metal panel

Also suitable for Nutserts M3, M4, M5 and M6.

Part No	Price
NHT015	£93.19

Replacements available

HEAVY DUTY LAZY TONG POP RIVET

£52.65 Replacements availa

Accepts Pop Rivets upto 6.4mm diameter. High quality, heavy duty tool that requires minimal physical effort.

M3-M6 NUTSERT TOOL

M3 - M6 Capacity Nutsert Tool.

Quick release mandrel system

Price

Supplied with mandrels:

M3, M4, M5, M6

Part No

NHT011

Steel body and lever.

M3-M8 TWO HAND NUTSERT TOOL

Supplied with mandrels: M4, M5, M6, M8 & M10

Price

£76 14

M4-M10 NUTSERT TOOL Provided with quick mandrel change system

M4 - M10 Capacity Nutsert Tool

475mm

Part No

NHT128

Small, powerful and practical lever type to replace the need for plier type. Power transmission: it takes 3 times less effort than a conventional lever tool.

Replacements available

M3 ,M4, N	л5, М6, N =	A8.
Part No	Price	
NHT229	£88.66	

PCL AIR RIVET GUN ...

Air riveter ideal for general workshops or metal work fabrication. Ergonomic design for operator comfort.Lightweight. For rivets sized 3/16", 5/32", 1/8" or 3/32" Material: Aluminium Vibration: 1.3 m/s²

Sound: 76 dBa Mechanism: 1940 lb Traction

(Pulling) Power Length: 6.9 in / 175 mm

Weight: 3.5 lb / 1.6 kg Minimum Hose Size: 3/8 in / 10 mm Air Inlet Thread Size: 1/4 in

Average Air Consumption: 4 cfm / 113 l/min

Part No	Price
PCLA06	£88.40

HAND RIVET GUN WITH 60 ASSORTED POP RIVETS

A handy selection of pop rivets and industrial quality hand tool Complete with approx. 60 assorted pop rivets: 2.4, 3.3, 3.9 & 4.9mm

Part No	Price
HT73	£13.31

TWO HAND POP RIVET TOOL 2.4-4.8mm

Profesional lever tool for sizes 2.4mm - 4.8mm to replace lazy tong riveters. Power transmission: it takes 3 times less effort than a conventional lever tool or lazy tong. 4 nose pieces provided 2.4mm, 3.2mm 4.0mm, 4.8mm Part No Price

PROFESSIONAL HAND RIVET GUN

Small, light, hand operated professiona tool for setting blind rivets. An extra set of jaws is included in tool For sizes 3.2 - 4.8

Part No	Price
NHT230	£16.72

10" HAND RIVET GUN

Accepts various pop rivet sizes: 3/32" (2.4mm), 1/8" (3.2mm), 5/32" (4.0mm), 3/16" (4.8mm)

1. Copper Grease Spray
Features a special blend of heat stable, long lasting anti-seize lubricant which protects against pitting, distortion and seizure at temperatures in excess of 316°C (600°F). Ideal for preventing disc brake squeal, exhaust manifold studs / nuts / wheel nuts / bolts. battery terminals & axle arms.

2. Duck Oil Aerosol

A silicone-free, non-conductive, multi-purpose service spray. Exceptionally low surface tension means it can easily penetrate lubricate and protect with no need to dismantle machinery and parts

3. Jizer Aerosol

Parts degreaser that will quickly dissolve heavy deposits of mineral oil, grease, tar, bitumen and waxes. Water rinsable, can be used for removing oil and grease marks from many floor surfaces, tar spots and oil from body work and cleaning paint brushes.

4. Spray Paint

Available in: Matt Black, Gloss Black, Grey Primer, Red (RAL Post Office), Yellow (RAL AA), White (RAL Ford Van)
Acrylic formulation. High density spray paint. Suitable for metal, wood, cardboard & most plastics

Fast acting concentrated de-icer gives a speedy and efficient removal of ice, frost and snow from windscreens while helping to prevent re-freezing. Effective to temperatures down to -20°c

6. Cleaner & Degreaser

Powerful quick-drying cleaner and degreaser for various maintenance and assembly jobs. Suitable for cleaning and degreasing mechanical parts. Also suitable for the preparation of surfaces for the application of sealants or adhesives.

7. Brake Cleaner

Powerful, fast-drying cleaner for brake and clutch parts. Removes excess brake fluid, excess oil, dirt, etc. quickly. Prevents squeaking brakes and clutch slipping. Easy to apply from all angles and does not corrode metals.

8. PTFE Spray

High-grade lubricant based on PTFE for the treatment of metal and plastic parts. Resistance from -50°C to 250°C. Repels water and dirt. PTFE offers long-term protection against friction and prevents wear.

9. White Grease

High-grade lubricant based on white lithium soap with PTFE (Teflon®) additive for heavy duty applications. Water resistant and protects against corrosion. Suitable for vertical applications, does not flow down or drip. Suitable for temperatures of -20° to +120°C.

10. Multi Spray

High-quality universal spray to be used on screws, bolts, nuts, moving parts, axles, hinges, chains, garden tools, etc. Corrosion resistant. Has a penetrating action and a protective film remains after cleaning. Does not corrode plastics and metals. Prolongs the life of rubbers.

11. Degrip All
Degrip All is a high quality penetrating oil which dissolves rust and corrosion. Highly efficient in releasing corroded and rusted metal parts such as nuts, bolts and machine parts. Due to the very low surface tension Degrip All penetrates into very small openings to release stuck

12. Cutting Oil

Cutting oil is a high quality oil which prevents overheating of metals when cutting and drilling. Excellent anti-mist characteristics. Reduces resistance against cutting and mechanical tension of cutting tools. Non corrosive, does not contain silicones. Suitable for: a varierty of cutting & machining operations on steel and most ferrous and non ferrous metals

13. Sealant Remover

WB-4

WD-40

A ready-to-use and fast-working spray based on terpenes for removing hardened silicones and Polymers. Can be applied on most surfaces, including aluminium, coating, ceramics, laminated board, paint and certain plastics. Applications - Removal of old silicone residue, spilled silicone from different kinds of surfaces. Fast-working, does not drip, specifically for silicones.

14. Contact Spray

Universal spray for the cleaning & maintenance of electric contact areas. Dissolves corrosion and oxidation. Reduces humidity. Non Corrosive. Suitable for interior and exterior applications. Suitable for electric contact points such as switches, batteries, and light switches Cleans and deoxidizes surfaces and improves the power transmission at electric contacts. Stops moisture penetration. Also suitable for dehumidifying of electric wirework and tools.

15. Vaseline Spray
Transparent lubricating and protection spray. Dilutes acids & alkalis, and prevents general wear and tear. High temperature resistance Used on metals and plastics to protect against water and weather conditions. Typical applications include door and window hinges, nuts and screws etc. High temperature resistance. Silicone free

16. Silicone Spray

Transparent lubricating and anti-adhesive spray based on high performance silicone oils. Lowers friction and prevents wear and tear on mechanical components. Prevents dirt and grease build up. Very high temperature resistance. Used on plastics and rubbers to lubricate and protect.

17. WD-40 Smart Straw

Can be used for a precision stream or simply fold down for regular, wide spray.Stops squeaks. Drives out moisture. Cleans & protects. Loosens rusted parts. Frees sticky mechanisms

18. 3-IN-ONE

Multi-purpose oil lubricates, cleans and prevents rust. 200ml spray Also available in a 100ml drip bottle.

19. GT85

A general purpose cleaning/lubricating spray. With its CFC-free propellant, GT85 is environment friendly and is ideal for anywhere non sticky lubrication/spray Maintenace is required.

20. WD-40 Penetrant Spray
This powerful fast acting WD-40 penetrant solution quickly penetrates this powerful rast acting wo—to perfect an expension quickly perfect are tis way into hard to reach areas and rapidly loosens seized fixings or stuck and rusted moving parts. 360° valve allows wide and precise spray. Highly water resistant.

21. Belt Dressing

Formulated solution to increase the efficiency on belt drive machinery and increases the torque and power of the belt by reducing the times the belt would normally slip under heavy loads. This will increase the longevity of the belt which in turn reduces cost of belt replacement.

22. Spray Adhesive
Multi-purpose Amber coloured, high strength adhesive spray. Designed to bond a wide variety of materials on most surfaces, including plastic, insulation foam, foil, paper, cardboard and rubber. Not to be used on polystyrene. Fast drying, high level of tack.

23. Spray Grease & Chain Lubricant

Designed to penetrate and lubricate cables, linkages, hinges & locks. It has excellent anti-fling properties and reduces friction and heat. Safe for use on chains with 'O' rings. Use regularly to prevent the build up of rust and corrosion. Contains a small amount of silicone.

BUILDERS GRIP GLOVES

- 1. Economy, general purpose, latex coated grip glove with polycotton liner, offers the necessary hand protection with great value
- 2. 10 gauge premium latex coated grip glove with polycotton liner, provides good tear & abrasion resistance & performs well in both wet & dry conditions.
- 3. The nitrile coating on this flexible grip glove provides added abrasion resistance. Ideal for auto repair & assembly.
- 4. The high cut resistant glove offers superb cut protection whilst staying flexible and highly breathable. The crinkle latex palm coating provides excellent grip in wet & dry applications. Extremely hardwearing
- 5. The premium dexti grip gloves have a nylon and lycra blend liner with NFT nitrile palm coating which is specially developed for precision handling and produces superior grip on dry, wet and oily conditions. Enhanced breathability and santized hygiene function which provides prolonged freshness, protection and outstanding comfort.
- 6. Thermal, latex coated grip glove, with a warm 10 gauge acrylic liner. Ideal for heavy duty outdoor work or working in cold conditions.
- 7. The Dexti grip glove is ideal for precise operation requiring maximum dexterity. Suited for general assembly work & precision parts handling where surface oil is present. Breathable, seamless 13 gauge liner in black to prolong glove life.

GLOSSARY:

BLOWN FILM: 2 side cling (adhesive coated),

greater load retention/ holding power, greater teal

key buncture resistance. Ideal for packing

rirregular shaped products/ pallets.

Can be used in deep freeze storage.

CAST FILM: 1 side cling (adhesive coated), sticks only to itself, quieter unwind, excellent tear resistance, clear & glossy.

EXTENDED CORE: The core is extended at either side of the roll to act as handles (no dispenser required)

STANDARD CORE: To be used with a dispenser

PRE-STRETCHED FILM: A more economical & environmentally friendly stretch film. Up to 50% less film used-reducing packaging costs. Reduces packaging waste. Performs more efficiently than most standard films. Requires less tension making it easier to use.

STRETCH FILM CUTTER

Concealed blade makes it safer to use and the perfect tool for cutting stretch film and strapping.

MULTI PURPOSE CARTON OPENER

Removes staples easily Ideal for cutting stretch film and plastic strapping. Retractable tape slitter

HOW WE OPERATE:

We are passionate about our fair-minded approach to business and we will always do our utmost to satisfy all of our customer's requirements. We will consider individual circumstances for any issues that may arise.

1 PRICES

- 1.1 All prices including carriage are subject to VAT
- 1.2 Prices shown are accurate at the time of going to press.
- 1.3 If an error or misprint has occurred in which the price of an item is inaccurate, we reserve the right to supply goods at the intended price.

2 CATALOGUE

2.1 E & OE

- 2.2 Pictures are for illustration purposes only and may vary slightly from the actual products supplied.
- 2.3 All product descriptions, colours & styles etc, shown within our catalogue, are actively monitored to minimise variations however some disparity can occur.

3 DELIVERY

- 3.1 A signature will be needed upon delivery of your goods. Goods being left without a signature would be at your own risk and must be requested prior to despatch.
- 3.2 Next day delivery to UK mainland addresses are almost always successful but cannot be guaranteed.
- 3.3 We unfortunately cannot accept liability for any consequences regarding carrier performance. We will do our best at all times to limit the effects of any carrier failings and will deal with these on an individual basis dependant on circumstance.
- 3.4 Please notify us of any issues with goods received within 7 days of delivery and within 7 days of despatch for any delivery issues. Goods are despatched on the day of order unless you are advised otherwise.

4 PAYMENT

- 4.1 Payment must be made in full before your order is despatched unless a credit account has been agreed prior to your order. If paying by cheque or bank transfer at the point of order please wait until a pro-forma invoice has been issued.
- 4.2 Credit accounts will only be opened when an application form has been completed, accepted by us and your credit facility agreed.
- 4.3 We reserve the right to withdraw credit facilities at any time. Any late payments may jeopardise this facility.4.4 Overdue payments may incur charges.

5 RETURNS

5.1 We do our utmost to satisfy customer requests with regard to returns. Please be aware that we are unable to process any returns without prior arrangement.

6 ORDERS

- 6.1 Orders are processed in a short space of time and despatched throughout the day to meet our delivery deadlines. We cannot guarantee that orders can be amended once processed.
- 6.2 We sell goods only on the understanding that the buyer shall be responsible for ensuring suitability of fitness of goods for the intended use.
- 6.3 By placing an order in any format you will be accepting our 'Offer of goods for sale' as we have specified within our Terms and Conditions and your order will be processed without delay.

7 USE OF DATA

- 7.1 We will only process and store the data that is required to administer your account, supply the products and services you have requested from us and to provide our up to date catalogue. We may use your information for other administrative purposes such as customer service and updates on promotions relating to products offered by us.
- 7.2 We will never sell data.
- 7.3 Your data is only used for the intended purpose.
- 7.4 Please contact us if you would like to be removed from our mailing list.

8 LIMITATION OF LIABILITY

- 8.1 We are not the manufacturer of the Goods and it is therefore reasonable for us to limit our liability. We will do our utmost to resolve any complaint relating to the Goods but we will not be liable for any defect in quality of the Goods and our obligations in such respect will be restricted to applying our reasonable endeavours to:
- a) Transfer to you the benefit of any warranty or guarantee given to us in respect of the goods, if requested by you.
- b) Assist with any available claim under the terms of any warranty or guarantee, on your behalf and at your expense. 8.2 Our total liability shall not exceed the price of the goods.

Our Standard Terms and Conditions are available on request. Our Privacy Policy can be found on our website.
